

## **Inventory Analyst**

Westinghouse Lighting Corporation currently has an immediate opening for an Inventory Analyst in our Philadelphia office.

Westinghouse Lighting is one of the world's largest providers of light bulbs, luminaries, ceiling fans and lighting accessories. As a proven industry leader, we are committed to serving our worldwide customers with superior quality and an extensive product offering.

Established in 1946 and headquartered in Philadelphia, Pennsylvania, Westinghouse Lighting has offices in the United States, Europe, Mexico, Central America, and Asia. The Company culture stresses team work, open communication, and a collaborative style.

Westinghouse has an opening for an Inventory Analyst. In this position, you would be an integral member of the supply chain team. The Analyst will drive effective forecasting, procurement and deployment of inventory within the distribution network to ensure alignment with customer demand.

### **Duties/Responsibilities:**

- **Forecasting** - Manage the demand forecasting process and maintain the forecast within the supply chain planning system.
- Evaluate, measure and report forecast accuracy. Perform root cause analysis of forecast error, and drive multifunctional alignment.
- **Procurement** – Drive supplier procurement. Evaluate and measure supplier performance.
- **Inventory Optimization**– Maintain properly balanced inventory across multiple distribution centers to support service level goals.
- Drive continual process improvement in forecasting, inventory deployment and supplier performance.

### **Qualifications:**

- A minimum of 3 years experience in a supply chain role for a manufacturer or distributor with heavy involvement in demand planning/forecasting.
- Expert with demand planning software and utilization of technology to improve forecasting is a firm requirement. Familiarity with MS Navision is a plus but is not required.
- Thorough understanding of inventory cost drivers.
- Experience with sales and operations planning is preferred.
- B.S. in Business, Logistics or Engineering with strong analytical skills.
- APICS certification is a plus.

Westinghouse Lighting Corporation offers a competitive benefits and compensation package. Westinghouse couples long-term stability with innovation and the opportunity for professional growth through continued learning and job development opportunities.
