

*Principal Business Analyst
Red Bank, New Jersey*

The primary role of the *Principal Business Analyst* of assigned process area is to participate and/or lead in the data readiness, discovery, design, testing, implementation and continuous improvement of standardized policies, processes and software systems across the Company. The individual in this role will collaborate with Information Services team members and the user community in support of defined objectives to innovate, deliver and support the K. Hovnanian Integrated Software System (KHISS). KHISS is an integrated suite of enterprise-wide, standard business processes and systems that increases sales, improves profit and enhances customer satisfaction.

This individual will simultaneously manage all aspects of one or more multiple small to large projects. Responsibilities will include some baseline support, administrative and maintenance duties, and leading, participating and contributing to multiple various sized local, regional, and national projects. The differentiating characteristic is increased number of assigned tasks with greater complexity and business impact.

Bachelors degree in Business Administration (relevant concentration preferred), Accounting, or MIS, with 3-4 years of experience implementing JD Edwards EnterpriseOne financial and job cost applications preferred; or a Graduate Degree (Masters) in Business Administration, Accounting, or MIS, with 2-3 years of experience implementing JD Edwards EnterpriseOne financial and job cost applications preferred; or relevant and equivalent Business or IS experience of minimum of 4-5 years.

Moderate travel may be required in support of system implementations.
